INSPECTION COMMENT

INSPECTION COMMENT

Stream crossing for a 10" gathering line for the Voll farm Marcellus Gas Wells. Boring under Little Connoquenessing. A small release of bentonite drilling gel was released into Connoquenessing but immediately contained and cleaned up. There was no fish kill or any visible impact on aquatic life. There was no evidence that a spill had even occurred. It was estimated by drilling contractor that approximately one 40 lb bag of bentonite was lost. Frac out hole was plugged and drilling resumed.
